## Message by the Chairman

CDF- Pakistan has sustained its activities during 2018/19, and this is despite Pakistan's well-documented but negative media image which has intensified following several high-profile acts of violence. It is true that Pakistan is experiencing political instability, but as I've emphasized in previous reports, life for the large majority of the population continues largely unaffected by the troubles. The CDF- Pakistan continues its activities in all parts, and has been untouched by the events reported in the media.

The mission of the CDF- Pakistan is unchanged. That is, it provides education and vocational training at grass roots level, leading to employment opportunities, for disadvantaged girls and women and children of all faiths and cultures in Pakistan. To empower women and children, human rights training, seminars and workshops are conducted during the year in different regions. For children seven schools have been opened in marginalized communities near

Sakrand. CDF- Pakistan is committed and dedicated to work for the socio- economic rights and promotion of human rights and democracy in all communities. Through the CDF- Pakistan Legal Aid Forum free legal aid is provided for women victims of crimes.

The recently formed Sports Club has succeeded in realizing the potential of young people who would have otherwise been outcasts in their communities. CDF- Pakistan activities continue to be concentrated in three diverse areas of Pakistan.

The CDF- Pakistan really does make a difference to people's lives, and I get quite a buzz out of being part of it. Time and time again I have come across young women and children of all faiths who have received training in the CDF- Pakistan Skill Centers over the past Twenty years, and who are now making a living for themselves and their families, bringing home up to Rs6000 per month – a very respectable sum in the rural desert communities. Some have become trainers themselves, and so this is an example of the Project becoming self-sustaining.

The CDF- Pakistan Schools also have provided a lifeline for uneducated communities in Sindh; they are a credit to the dogged determination of the CDF- Pakistan team to improve opportunities in these impoverished communities. So, to conclude, the CDF- Pakistan is demonstrably improving the quality of life for women, children, families and communities. In

addition to skills training and education, CDF- Pakistan is evolving into a support network for vulnerable women who may be victims of domestic violence, illness and bereavement. Due to its multi-faith ethos, CDF- Pakistan also encourages dialogue, and hence reconciliation, between the major faith groups. In our world of fragile international relationships, CDF- Pakistan is surely a cause to celebrate and support.

My thanks are due to all who have supported the CDF- Pakistan over the year, and in particular the CDF- Pakistan committed and dedicated team. I should like to thank especially

the individual donors, who must remain anonymous, but who have exceeded expectations in their generosity this year. Of course, we are always pleased to receive donations – the CDF- Pakistan would fail without them – but we also need support in other forms (fund-raising skills, financial management, presentation skills, legal expertise, tools and material, and so on). So, if you have any spare time or spare money, please consider continuing to support the Project in whatever way you can.

Abdul Hameed Arain Chairman CDF-Pakistan

The SEF Assisted Schools (**SAS**) Program is the integration of the old Integrated Education Learning Program (IELP) and Rural Based Community School by Sindh Education Foundation (SEF) Karachi, Government of Sindh.

Given its viability, the formation of Public Private Partnerships is SEF's core mandate and has become an instrumental concept and approach throughout the organization's programs. This has helped in mobilizing technical, financial and human resource services of the private, public and community sectors for revitalization and enhancement of educational opportunities for the marginalized segments of society.

### CDF-Pakistan's Partner's

A quality education is the right of every  
child.

Every time we deny a child this  
opportunity,  
we squander potential...  
we defeat a dream...  
we break a promise.

If we, as citizens, are to stem this tide of  
ignorance and despair, our foremost duty is  
to educate, enable and empower our  
children to become agents of positive  
change. Today, with two decades of  
experience and more than 20 school units  
under our care, The Community  
Development Foundation Pakistan is  
committing itself to creating Ten Thousand  
Agents of Positive Change by the year 2025.

In making this promise to our common  
future, we recognize that the road ahead  
remains daunting and demands belief,  
creativity and concerted action from all of  
us – citizens, enterprises, institutions and  
the State.
