Message by the Chairman

CDF- Pakistan has sustained its activities during 2023/24, and this is despite Pakistan's well- documented but negative media image which has intensified following several high-profile acts of violence. It is true that Pakistan is experiencing political instability, but as I've emphasized in previous reports, life for the large

Majority of the population continues largely unaffected by the troubles. The CDF- Pakistan continues its activities in all parts, and has been untouched by the events reported in the media.

The mission of the CDF- Pakistan is unchanged. That is, it provides education and vocational training at grass roots level, leading to employment opportunities, for disadvantaged girls and women and children of all faiths and cultures in Pakistan. To empower women and children, human rights training, seminars and workshops are conducted during the year in different regions. For children seven schools have been opened in marginalized communities near addition to skills training and education,

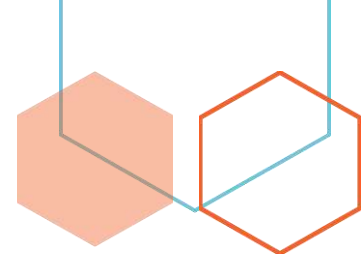

CDF- Pakistan is evolving into a support network for vulnerable women who may be victims of domestic violence, illness and bereavement. Due to its multi-faith ethos, CDF- Pakistan also encourages dialogue, and hence reconciliation, between the major faith groups. In our world of fragile international relationships, CDF- Pakistan is surely a cause to celebrate and support. My thanks are due to all who have supported the CDF- Pakistan over the year, and in particular the CDF- Pakistan committed and dedicated team. I should like to thank especially Sakrand. CDF- Pakistan is committed and dedicated to work for the socio-economic rights and promotion of human rights and democracy in all communities. Through the CDF- Pakistan Legal Aid Forum free legal aid is provided for women victims of crimes.

The recently formed Sports Club has succeeded in realizing the potential of young people who would have otherwise been outcasts in their communities. CDF- Pakistan activities continue to be concentrated in three diverse areas of Pakistan.

The CDF- Pakistan really does make a difference to people's lives, and I get quite a buzz out of being part of it. Time and time again I have come across young women and children of all faiths who have received training in the CDF- Pakistan Skill Centers over the past Twenty years, and who are now making a living for themselves and their families, bringing home up to Rs6000 per month – a very respectable sum in the rural desert communities. Some have become trainers themselves, and so this is an example of the Project becoming self-sustaining.

The CDF- Pakistan Schools also have provided a lifeline for uneducated communities in Sindh; they are a credit to the dogged determination of the CDF- Pakistan team to improve opportunities in these impoverished communities. So, to conclude, the CDF- Pakistan is demonstrably improving the quality of life for women, children, families and communities. In the individual donors, who must remain anonymous, but who have exceeded expectations in their generosity this year. Of course, we are always pleased to receive donations – the CDF- Pakistan would fail without them – but we also need support in other forms (fund-raising skills, financial management, presentation skills, legal expertise, tools and material, and so on). So, if you have any spare time or spare money, please consider continuing to support the Project in whatever way you can.

Chairman CDF-Pakistan

The SEF Assisted Schools (SAS) Program is the integration of the old Integrated Education Learning Program (IELP) and Rural Based Community School by Sindh Education Foundation (SEF) Karachi, Government of Sindh.

Given its viability, the formation of Public Private Partnerships is SEF's core mandate and has become an instrumental concept and approach throughout the organization's programs. Abdullah Shah Ghazi and the work he did in humanitarian services. There are few countries in the world where there are seas, so in Pakistan Karachi is also a city where the sea is present. Have money because these children belong to poor families. While Community Development Foundation is running some schools in collaboration with the Sindh Government, it is also running schools under self-help, in which one school is CDF Schooling System Hussainabad Sakrand which is completely self-help. CDF is trying to provide complete facilities to the poor and especially the orphans studying in school who have no support. Those books which are available in the market for four to five thousand rupees per set were taken away. This year, CDF is making an all-out effort to continue distributing books to the remaining schools in its neighborhood. Last year, books were used by social organizations that are working for the improvement of education in their areas.

the teachers also do hard work and they should be given an honor on this day because they are also the next generation in their field. They are doing an excellent job because it is only a teacher who takes the children to a higher position by giving them training in the right way. Because every person does not become a doctor or an engineer, but by acquiring good skills in different skills in the world, he creates ease for people. All the arrangements of this program were made by CDF and this opportunity But CDF Chairman Abdul Hameed Arai took a full session as a motivational speaker and gave more information to the teachers regarding their work because

A protest was held for the freedom of innocent child Hasnain, who was kidnapped from Panu Aqil 16 May 2024

It is better to do something than to do nothing. If every man shuts up just thinking that this is my problem then it will make a mess in the whole world. Every man should make legitimate efforts to help every other man. If we people keep sitting like this, then one day the society will fall into the hands of bad people. One thing should always be remembered, if the fire can start in someone else's house, it can also start in our house, therefore, those who have been given authority and power by Allah should do their work honestly.

The worsening situation in Sindh province is not a common thing. We keep a few weapons with us and feel that we are safe. What should be done to us from the rest of the world? Leave the house to help the helpless people and if Allah has given you the authority, then the responsibility increases on you.
